FOR: ORGANIZER FOR USE IN THE CHARGING OF ELECTRICALLY
OPERATED CONSUMER PRODUCTS
SERIAL NO.: 10/799,123
FILED: MARCH 15, 2004
EXAMINER: DHIRUBHAIR PATEL

Commissioner of Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

This is in reply to the Office Action of 6/29/04.

Being submitted herewith as an Informal Drawing is the drawing sheet of Fig. 3 to which has been added a protruding electrical charging means as recommended by the examiner.

Accompanying this reply is REVISED AMENDMENT PRACTICE of the specification adopting, as recommended by the examiner, the headings of the referred to guidelines, and also deleting "MP3 players".

Also accompanying this reply is REVISED AMENDMENT PRACTICE of claim 1.

In line 5, "one said wall" was changed to "one of said walls", as recommended by the examiner.

This phraseology was also used for the line 8 reference to "spaced apart edges".

Serial No. 10/799,123
Examiner Dhirubhair Patel
Attorney Docket: P-3995-1

Involved is a compartment and serving as a cover for the compartment is a top wall 40 and the pivotally mounted lid 60, and accordingly the reference to "cover" in the first line of subset D obviates the confusion noted by the examiner in line 9.

An antecedent basis has been provided in the two locations in line 10.

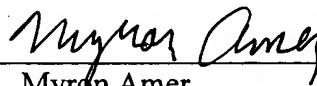

The examiner's recommendation for line 12 has been adopted.

Favorable reconsideration of this application is respectfully requested.

Respectfully,

MYRON AMER, P.C.
Attorney for Applicant
